

Gelatin Gummy Treats

Gelatin Gummies

Ingredients:

2 cups of any juice

2 tbsp gelatin

Honey to taste if needed.

Directions:

Mix 1/2 cup juice with gelatin and heat it stovetop until it dissolves. Add the remainder juice and continue heating while mixing. Once the mixture is warm, take it off the stove and pour into silicon molds. I chose hearts for Valentine's Day :) Set the full molds into the fridge for 3-4 hours for them to set. Enjoy!
